

PROTECTIONPRO[®]

BY MADICO

LITE PRO & EXPRESS PRO

Featuring M cuts on Lite and XL on Express

Introducing PRO MATS

ProtectionPro's new highly engineered Pro Mats are designed to make cutting film simple and efficient. Pro Mats feature a foam mat with a patented gripping coating produced by Lintec of Japan. And the new mats allow you to cut larger film sizes – up to tablet size on Lite machines and laptops on the Express.

The new Pro Mat comes in two sizes, Lite and Express. Both mats grip and hold the film in place during the cutting process eliminating the need to tape down film and saving over 40 seconds during the installation process. Just place ProtectionPro film on the Pro Mat, load into the machine, and cut to the desired size.

The new Lite and Express Pro Mats are compatible with ProtectionPro Lite 2 and Express 3 cutting machines and now allow increased cut sizes for all your retail and repair shop needs.
